

BSN Program

Life Care Institute of Health Sciences (Pvt.) Limited

The Bachelor of Science in Nursing (BSN) program aims to produce competent and professional nurses who are capable of providing safe, ethical, and evidence-based healthcare services.

Within 3–5 years of graduation, BSN graduates from Life Care Institute of Health Sciences are expected to:

PEO-1: Professional Practice

Demonstrate competence in delivering safe, patient-centered nursing care in hospitals, community health settings, and other healthcare environments.

PEO-2: Ethical and Professional Standards

Practice nursing with integrity, compassion, and adherence to professional and ethical standards of healthcare practice.

PEO-3: Leadership and Teamwork

Work effectively as members of multidisciplinary healthcare teams and demonstrate leadership in clinical practice and healthcare management.

PEO-4: Evidence-Based Practice

Apply research and evidence-based knowledge to improve patient outcomes and enhance healthcare quality.

PEO-5: Lifelong Learning

Engage in continuous professional development and pursue advanced education or specialization in nursing and healthcare sciences.
